Frameworks & Tools: React, Node.js, Expo, RESTful APIs, Docker, Git, CI/CD, AWS, Netlify

Systems: Windows & Linux Server Administration, Network Design, Cloud Infrastructure

Security: Secure System Design, Access Control, Cybersecurity Best Practices, Network Segmentation

AI/ML: Python/Java ML Pipelines, Transformer Models, NLP, Predictive Analytics

WORK EXPERIENCE

Senior Software Engineer & IT Specialist

Three Sisters Oyster Co. | Port Lavaca, TX

Mar 2025 – Jan 2026

- Designed, developed, and deployed full digital infrastructure including customer-facing web platforms and internal IT systems, serving full-time (~40 hrs/wk)
- Built and deployed real-time environmental monitoring system (AquaFarm) using TypeScript and REST APIs to track water quality data critical to business operations
- Managed network security, system updates, and troubleshooting across cloud and on-premise infrastructure, reducing downtime and improving system reliability
- Developed scalable, API-centric web applications and mobile-friendly tools; delivered unit-tested systems within tight deadlines in a fast-paced environment

Senior Full Stack Developer (Freelance)

Self-Employed | Port Lavaca, TX

May 2020 – Present

- Developed responsive web applications, e-commerce platforms, and portfolio sites for multiple clients using React, Node.js, SQL/NoSQL, and cloud services (~20-40 hrs/wk)
- Designed and deployed secure back-end systems integrating APIs, CI/CD pipelines via AWS/Docker, and performance-optimized front-end interfaces
- Collaborated with cross-functional teams of 3–5 developers on full-stack and AI/ML-integrated production applications; documented software methodologies for IT personnel

Contracted IT Specialist (Freelance)

CSD | Port Lavaca, TX

Oct 2022 – Oct 2025

- Provided on-demand IT support for multiple clients: hardware/software troubleshooting, server maintenance, and network configuration (~10-20 hrs/wk)
- Configured and optimized Windows/Linux servers and cloud systems; implemented workflow automation and secure network design for business clients

CERTIFICATIONS & LEADERSHIP

Certifications: IT Certified – Java | IT Certified – Python | Driver's License

Leadership: Network Design Team Lead (2024–2025); BPA State Competitor; Head Technician, FIRST Robotics (2019–2022); Competitive Programming Club
